EDUCATION

EMORY UNIVERSITY, GOIZUETA BUSINESS SCHOOL

Master of Science in Business Analytics (MSBA), STEM credentialed program

Atlanta, GA

May 2026

CHINHOYI UNIVERSITY OF TECHNOLOGY

Master of Science in Big Data Analytics

Harare, Zimbabwe

May 2023

UNIVERSITY OF ZIMBABWE

Bachelor of Business Studies and Computing Science, Honors

Harare, Zimbabwe

June 2019

TECHNICAL CAPABILITIES

-
- Languages: Python (Pandas, NumPy, Seaborn, Scikit-learn, Plotnine), R, SQL, DAX, Hive, Kafka
 - Tools: Power BI, Excel, Tableau, Qlik, Hadoop, Apache Spark, AWS, BigQuery, NoSQL, RapidMiner, IDEA, ACL
 - Techniques: A/B Testing, Regression, NLP, Forecasting, Time Series, Clustering, Benford's Law analysis,
 - Certifications: ISO 27001 ISMS Development and Implementation, Executive Certificate in Program and Project Monitoring and Evaluation, CARA Certified Apprentice Revenue Assurance

EXPERIENCE

ECONET WIRELESS ZIMBABWE

Harare, Zimbabwe

Data Analyst – Business Assurance and Risk Management

2021 to 2025

- Integrated Agentic AI and Generative AI in fraud analytics and forensics to enhance investigation workflows, reducing manual reviews by 80% and lowering fraud leakages to under 0.50%.
- Created Enterprise Business Intelligence dashboards with Tableau, Power BI, and Qlik-sense, digitizing 90% of internal controls and streamlining compliance reporting, reducing reporting cycles by 50%.
- Designed and operationalized cloud-based data assurance frameworks (Microsoft Azure & AWS) for system migrations and disaster recovery, achieving 100% data quality and regulatory compliance across business-critical datasets.
- Engineered and deployed an AI-powered fraud detection framework integrating machine learning, SQL alerts, and audits, analyzing over 10M daily transactions, improving detection accuracy to 95%.
- Built and automated SQL-driven data pipelines for alerts, compliance audits, and anomaly detection, ensuring real-time monitoring and maintaining a fraud leakage KPI below 0.50%.

ECONET WIRELESS ZIMBABWE

Harare, Zimbabwe

Data Analyst – IT Risk Management

2019 to 2021

- Strengthened IT risk management by establishing and enforcing data governance standards and validation frameworks, enhancing data reliability to almost 100% and supporting compliance with internal audit controls.
- Developed and deployed predictive analytics and anomaly detection to proactively identify revenue leakage and fraud risks, maintaining financial losses below 0.50% of total revenue.
- Implemented automated risk controls and KPI monitoring dashboards (Power BI, Qlik, ACL), improving compliance scoring to 99% and reducing manual oversight by 80%.
- Collaborated with finance, operations, and IT teams to mitigate system and operational risks, increasing process assurance and risk visibility across business-critical systems.

KCI MANAGEMENT CONSULTANTS

Harare, Zimbabwe

Data Science Intern

2017 to 2018

- Contributed to process improvement by integrating machine learning models and data governance practices, ensuring accurate, secure, and scalable analytics workflows.
